## **DETAILED ACTION**

### ***Drawings***

1. The drawings were received on January 30, 2009. These drawings are not approved. The amended drawings add new Figures 9 and 10. The new Figures 10 provide new embodiments not disclosed in the specification as originally filed. Paragraphs 33 and 52 do not provide antecedent basis for the new drawings.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 15 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 15 and 18 are indefinite because it is unclear which element is the "recess", since the claim indirectly depends from claim 7 which requires two subsections of the insertion area as shown in Figure 2. The drawings only show a recess with respect to Figures 5 and 6, which do not have two subsections as defined in the claims.

### ***Allowable Subject Matter***

4. Claims 1-8, 10-14, 16, 17 and 19 allowed.

### ***Response to Arguments***

Some further comments regarding the applicant's remarks are deemed appropriate.

The applicant argues that the new drawings should be entered into the application because the specification in paragraphs 33 and 52 supports the new drawings. Paragraphs 33 and 52 refer to Figures 5 and 6. The specification as originally filed provides no support for an embodiment having two subsections and a recess.

5. Applicant's arguments, filed January 30, 2009, with respect to claims 1-8, 10-17, and 19 have been fully considered and are persuasive. The rejection of claims 1-8, 10-17, and 19 have been withdrawn.

The applicant's remarks have been accorded due consideration, however, they are not deemed fully persuasive.

### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
